

2012 School Place,
Wledo, O., Oct. 29, '27.

Dear Mrs. Crane, - I am here this evening
15 minutes past midnight. Arrive in Boston
at 6:35 P. M. Took an auto trip to Ann Arbor
52 miles, yesterday - Temperature 72 deg!
Collected near the university town a few
plants. Will you kindly keep them in
for me? Teasel, Queen Anne's lace
(Both biennials I fear), an unknown mint,
and an aster, whose leaves look like a
Noveboracensis -
Regards to Dr. C. and Janeth -
(Use the teasel heads for Sincerely,
a winter bouquet.) Elvise Prutler
